

Family & Student Access

A module of the Student Management Suite

Helping parents keep up with their children's education can be a daunting task without Family & Student Access. No other software gets parents as involved and keeps students as informed about their progress.

Complete. Intuitive. The most robust software for your school district.

If you work in a district - small, medium, or large - you need software that's easy to use and can cross reference data to get you the reports you need. Skyward software solutions are a marvel of simplicity. Our users say they're "imaginative," "intuitive," and "vastly superior to any product on the market."

Skyward software offers advanced capabilities to meet your district goals, create accurate state reports, and improve your district-wide efficiency. From monitoring student progress to analyzing spending, our solution ensures your goals are achieved and your satisfaction is met.

Family Access

Today, many districts realize the important role active parents play in their children's education.

Family Access is designed as a perfect addition to Skyward's Student Management Suite. This module provides online information for parents regarding grades, attendance, discipline, test scores, and fees.

Students will love using Student Access to check their grades and make sure they aren't missing any assignments.
